No such persons have ever been officers of the Lancaster Co. Bank. The Senate of Ohio, by a tie vote, have refused to rechar-

ter the Ohio Life Insurance and Trust Company. The bil for this purpose had been first amended by striking out all after the enacting clause, and inserting a bill incorporating Mloujah T. Williams, Jacob Burnet and Samuel Fosdick, and their associates, for ten years, under the name they Low have, under the law of last winter to regulate banking in Ohio, and the amendments thereto of the present session with a capital of not more than \$500,000, in shares of \$100 each, and to commence business on or before the first of September next, or otherwise the act to be null and void. Correspondence of The N. Y. Tribune.

TALLAHASSE, Fla., Feb. 25, 1843. The resolution lately passed by the Direction of the Unio Rank, allowing stockholders to pay off their liabilities to the Bank for their loans on stock notes in Sterling deben tures endwised by the Directors and accompanied by Territorial bonds as collateral to the amount of the stock debt. (which is 667 per cent on their stock,) or in Territorial bonds to the whole amount of their stock-that is, \$100 of bond for 68 66-100 of State debt-has produced a strong movement on the part of the stockholders to knock down by every possible method the price of the bonds, that they may be bought up as cheaply as possible. To effect this, reports have been industriously disseminated, and no doubt have been circulated with you and abroad, calculated to alarm holders of the bonds into the belief that they are entirely or nearly worthless; wir le at the same time they are placing foods in New-York for the purpose of buying up such as are thrown upon the market at a low rate. This fact I think should be publicly known, in order that the motives fer such reports shall be unders ood and holders not be deceived by them. I have some of the bonds in trust in my hands, and some of the stockholders have been very anxious that I should sell, and endeavored to alarm me by statements that 20 could not be obtained, a large lot having gone begging at that rate, and that the price would probably settle to 10. The rumor that a lot had been offered at 20 1 endeavored to trace, and it was finally admitted that it was all an error. I find it difficult to form an estimate of the actual value of the bends, but I think it is beyond doubt the best policy for creditors of the Bank to hold on to their claims until the winding up of the Bank, and not allow themselves to be coerced, by the tricks and false reports of the debtors of the Bank, into sacrificing their claims. The Legislature is well disposed to expedite the liquidation of the Bank, and I believe, from what I can learn, that a larger dividend will be received by those who wan than those who sell now. The Bank will receive her liabilities in settlement of debts, and of course it is the interest of those who owe to depreciate the bonds, &c. Our Legislature seem disposed to do every thing to secure the bondholders except paying the bonds; and I think some measure will be struck out calculated to secure the assets of the Bank for teat purpose, as far as practicable. Yours, &c.

The following remarks on the City Sinking Fund appear ing them in the Stocks of the City, and it the stocks of the City could not be procured at a reasonable rate, in the Stocks of the United States, which were afterwards to be sold, and the proceeds applied to the redemption of the City Stocks. The Mayor, Recorder, Compitoller, Treasurer, and Chairman of the Finance Committee, were appointed the Commissioners of the Sinking Fund, and power given them to manage it. Subsequent acts of the Common Council have enlarged the resources of the Fund, until it has become sufficient to absorb the whole debt of the City on the 1st May, 1871, if the Stocks are suffered to accumulate in it until them, or 3½ years before the period for their redemption, as is provided in the 6th section of the Ordinance of June 13th, 1839, which reads as follows. "The City Stock which shall be purchased by the said Commissioners shall be transferred to them, and shall be held by them until the final redemption thereof; and the interest of the Stock so purchased shall, at each quarterly payment thereof, be regularly carried to the credit of the said Sinking Fund." The revenues at present pledged to the Sinking road amount to near \$100,000 per year, which, with the interest received on Stocks held by the Commissioners, and in creat received on Stocks held by the Commissioners, and the proceeds of Real Estate that it is proposed to sell through a stock slow of years, as the same can be done to advantage —reckoning such sales of Real Estate at \$200 000 per year— will be exactly chough to pay off the whole City Debt, as

Should the laws be so amended as to allow the adoption of the recommendation of the Croton Aqueduct Board, and the proceeds of the Croton Water be applied to the Sinking Fund, estimating the revenue for 1843 as \$100,000, and an increase of \$25,000 per year for succeeding years, till 1857, when it would be \$450,000 he accumulation at that time would be \$5500,000; and continuing \$450,000 as the maximum revenue from the water until 1880, the period for the final redemption of all the Stock, it would amount, by compounding in the Sinking Fund, to the enormous sum of \$17,500,000; or would amount to \$12,000,000 in 1864, and thus pounding in the Sinking Pand, to the enormous sum of \$17,500,000; or would amount to \$12,000,000 in 1864, and thus pay off the entire Water Debt of itself, during the present generation, and subject them to an amount of taxation equal to it, largely for the benefit of posterity.

The application of the Water Rems to the Sinking Fand, I cannot cut lock upon as interposite, the interest of the

Comport but lock upon as injurious to the interests of the City, and burthensome to the tax-payers. It would raise the price of Stock to much as to make it very expensive to the price of Stock so much as to make it very expensive to invest the accumulations of the Sinking Fund, as the debt would have to be redeemed before it was due. It would so ject the citizens to an addition to the tax equal to the amount of the reat received; and as we have arrived at that point when necessity for loans (except temporary, which are treely offerad) ceases, we cannot, in my opinion, do any thing that will continue the credit of the City at its present high standard, better than provide regularly, by the water itents and taxation, for the interest of the debt, and, by every possible means, reduce taxation.

The sale of \$150,000 to \$200,000 per year, of the real escale for wenty-eight successive years, until the debt is re-

tate for twenty-eight successive years, until the debt is re-deemed as proposed by me, would give the public the ben-ent of all rise in value which is naturally to be expected, bring much property, at present almost worthless, into

SANDs's SARSAPARILLA .- "King's Evil," so called, from an imaginary cure said to be performed by the royal touch. This fatal disease makes its appearance on different parts of the body, but principally affects the glandular system in its commencement, rom whence it proceeds to seize upon and atterly destroy the cartilages, ligaments and bones The first symptoms are enlargement of the glands about the neck, under the chiz and behind the ears, which continues to spread and increase in number, until the int-rnal or-gans become affected, and the lungs, liver and messentery glands are enveloped in disease from which the patient is only relieved in his sufferings by the pale messenger of death. Sands' Sarsaparilla has been proved by actual experiment in a great variety of cases, to arrest and perma nently cure this and similar complaints, such as scrofulous tumors, nodes or hard lumps, ulcers, obstinate cutaneous eruptions, &c. From the peculiar combination of this valuable medicine, it operates on the system as the only true 'roval teuch,' dispelling the disease and restoring sound health. As such it is confidently recommended to the af-

BANK LOCKS -Mr. Jones, the intelligent agent for Day, Newell & Day's Paumt Permutation Lock, has shown one of those Locks, and taken it to pieces, and explained its principles and operation to several gentlemen who hap-pened to be present in our office. Although not thoroughly skilled in practical mechanics, yet we feel bound to say that this Lock appears to us to be a very perfect piece of mechanism—that it would be impossible for the most sclen-ific pick lock to enter a vault, which was fastened by it— and that it is not lible to get out of order. It appears to us that Bank Officers, and others, in search of a Lock which is likely to afford perfect security, need not go fur ther than is necessary to find Mr. Jones. [Bost. Atlas.

GREAT TIMES AT THE AMEDICAN MUSEUM.—The nightly attractions at this place are of the most delightful character but we learn that peculiar performances will be given to morrow, day and evening, on the occasion of the founding of the establishment. This has always been, to the young especially, an interesting bolyday, and it can not fail to be well attended on this occasion.

TT Persons wishing The Tribune left at their resider ces or places of business in the city at an early hour in the morning, will please leave their names, or send them in by Nassau-street, opposite the Park. Terms, nine cents a reck, to be paid to the Carrier.

AT We have made arrangements to have our City Subscribers to the WEEKLY TRIBUNE regularly served at Tr American Enstitute.-Exhibition of the grand Planetarium, or Miniature of the Heavenly Bodies, at Nib-to's Garden.—The explanations and glowing addresses brought forth nightly at Niblo's brilliant Saloon, are sur-

passingly interesting. Judge Meigs's address on Tuesday evening was short, cemprehensive, eloquent, and at time superlatively grand. Professor Gourand's description superlatively grand. were exceedingly graphic. He placed his hearers unde Saturn's broad, brilliant ring with seven revolving moons shooting along, to their infinite delight.

This evening the great apostle of Missionaries, the Rev Dr. BAIRD, who has been in more palaces and been we
